

Kit #6803 Parts Measurements are approximate and are for identification purposes only

<http://www.hd-imagination-house.com/Accessories.html>

- 1 Banister ["B" Rail] 8¹/₄ angled ends
- 1 Rail ["B" Rail] 2⁵/₈
- 1 Rail ["B" Rail] 1⁷/₈⁺
- 1 Liner [3/8 x 3/8] 1⁷/₈⁺ Drilled
- 1 Liner [3/8 x 3/8] 3⁷/₁₆ Drilled
- 1 (15) 1/8 Dowel 2¹/₄
- 2 Landing Newel 2⁷/₈
- 1 Banister Newel 3¹/₈

<http://www.hd-imagination-house.com/Interior/Landing.html>

Paint, sand, and paint again all parts before assembly.
Do not paint in Rails' grooves or Liners' holes. If you are staining and varnishing, use a staining sealer for more even penetration of the stain.

When gluing parts together, scrape sections of bare wood for the glue to grab.

1: Glue Dowels into the 3⁷/₁₆ Liner's holes.

2: Glue on the 2⁵/₈ Rail.

Adjust the Rail
Straighten the Dowels

3: Glue Landing Newels to the Liner and Rail. The Newel is thicker than the Liner, and overhangs toward you. The right Newel in this photo lines up with the Liner; the left Newel overhangs the end.

4: Assemble the other Liner/Rail set, straight and square

Pencil

□5: Test, mark, and cut the top Dowel (3rd step down) to line up with the ceiling. A Liner (step 8) will touch the top at this new length

View the Dowel with a mirror to make sure it is straight up-and-down.

□6: Glue the Dowel to the step and Stringer (stair side), all the way back on the step. Make sure the Dowel is straight up-and-down: check it using a mirror to see it from the side and compare the Dowel to the edge of a square object.

□7: Glue the rest of the Dowels to the steps and Stringer. Make sure they are all straight up-and-down... use a mirror: the Banister won't fit properly if the Dowels are tipped.

□8: Glue the 17/8 Liner/Rail to the "overhang" end of the longer Liner/Rail. Let dry.

Glue the Liner/Rail set into the stair hole.

Banister Newel

□9: Glue the Banister to the Dowels and to the bottom of the Liner. Pinch the Dowels into the groove.

□10: Glue the Banister Newel in place. Clean up excess glue, adjust as necessary; touch-up the paint when the glue is dry
